

# TAKATA AIRBAG EMERGENCY: MARTINIQUE REMAINS UNDER A CRITICAL SAFETY ALERT

## Increased Mobilization Needed in Martinique

As part of the global recall campaign for defective airbags manufactured by supplier Takata, SODIVA reminds the public that thousands of potentially dangerous vehicles are still circulating in Martinique without having undergone the required safety intervention. These vehicles must be brought into the workshop without delay.

Since the beginning of this recall, SODIVA's teams have been fully mobilized and have demonstrated their capacity to act effectively:

- ✓ 2,977 Citroën vehicles secured
- ✓ 865 DS vehicles secured

**However, SODIVA warns of a worrying drop in the number of vehicles secured in recent months:**

- ⚠ **62 vehicles in March 2025**
- ⚠ **25 vehicles in April 2025**
- ⚠ **Only 12 vehicles in May 2025**

This slowdown is alarming. Each unreplaced airbag represents a real risk of severe or even fatal injury.

We are issuing an urgent call to all owners of affected Citroën, DS, Jeep, Chrysler and Dodge vehicles to immediately schedule their appointment at the SODIVA workshop.

## A Fast, Free, and Priority Safety Service

SODIVA ensures priority handling for all affected vehicles:

- 📦 All replacement parts are readily available
- 💰 The intervention is completely free of charge
- 🕒 Average servicing time: less than 2 hours
- ☎️ Prise de rendez-vous au numéro unique : **0596 39 41 79**
- 🚗 Nos équipes se déplacent et peuvent intervenir chez vous

## About the Takata Airbag Recall

The Takata airbag crisis concerns a critical safety defect affecting airbags manufactured by Japanese company Takata.

The crisis began after it was discovered that some airbags could rupture upon deployment, posing a potentially fatal threat to vehicle occupants.

These defects have been linked to severe injuries and deaths.

The affected airbags were primarily installed between 2002 and 2017, across 19 car manufacturers and 34 global brands.

By the end of 2023, more than 30 deaths worldwide – including 26 in the United States – had been reported, along with over 400 serious injuries caused by these airbag explosions.
