

# RECALL OF CITROËN C3 AND DS3 VEHICLES EQUIPPED WITH TAKATA AIRBAGS: "STOP DRIVE" NOTICE IN EFFECT IN MARTINIQUE SINCE JULY 2023

Following the June 17, 2025 announcements in the French national press regarding the immediate immobilization of certain Citroën C3 and DS3 models due to defective Takata airbags, SODIVA, official distributor of Citroën and DS brands in Martinique, wishes to provide key clarifications for local motorists.

## "Stop Drive" Order Has Been in Effect in Martinique Since July 2023

While the immobilization order ("Stop Drive") has just been implemented in mainland France, it has already been enforced in Martinique since July 2023. This means that vehicles identified as high-risk have not been allowed to circulate for nearly two years, in accordance with enhanced directives issued locally in coordination with authorities and the manufacturer's after-sales service.

**\* This is a race against time: the aging of airbag components, combined with Martinique's hot and humid climate, significantly increases the risk of airbag explosion – with potentially fatal consequences.**

## Which Citroën C3 and DS3 Vehicles Are Affected?

The recall applies exclusively to Citroën C3 and DS3 vehicles manufactured between 2009 and 2016 and sold between 2010 and 2017, fitted with Takata airbags.

## Secure Your Vehicle - Fast, Free and Priority Service

SODIVA ensures priority handling in its workshop:

- 📦 All replacement parts are readily available
- 💰 The intervention is completely free of charge
- 🕒 Average servicing time: less than 2 hours
- ☎ Schedule an appointment via the dedicated hotline: +596 596 39 41 79.
- 🚗 Our teams can also come to your home for the intervention

## Why Is This Recall Critical?

The defect in Takata airbags may lead to explosions upon deployment, causing serious injuries.

This global recall affects over 100 million vehicles worldwide.

As of the end of 2023, more than 30 fatalities and 400 injuries had been reported globally due to this defect.
